

Rubber Kerb Ramps

Rubber Kerb Ramps are a heavy duty modular ramp suitable for cranes, diggers, trucks, cars or hand trolleys to traverse kerbs without damaging infrastructure. Can be bolted down for permanent use.

CODE	DESCRIPTION	SIZE (mm)
49-KR100	Rubber Kerb Ramp Centre	600(L) x 100(H)
49-KR100E	Rubber Kerb Ramp End	300(L) x 100(H)
49-KR150	Rubber Kerb Ramp Centre	600(L) x 150(H)
49-KR150E	Rubber Kerb Ramp End	360(L) x 150(H)

Rubber Hose Bridges & Ramps

Rubber Hose Bridges & Ramps protect hoses and cables from vehicle damage. They also provide anti-trip access for pedestrians when large hoses cross over footpaths. Built-in carry handle for convenience.

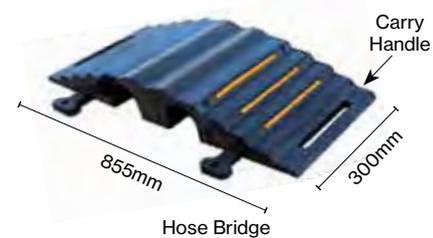

Both Bridge and Ramp come with 'dog bone' connectors.

See page 203 for full dimensions.
