

Ground Protection Mats

Ground Protection Mats

Multi functional and reversible, Ground Protection Mats are suitable for heavy duty ground protection and temporary access. Allows vehicles to access unstable ground such as mud and soft sand. Prevents costly damage to sensitive surfaces.

- Vehicle and pedestrian anti-slip surfaces
- Inline pattern makes it easier to water-blast
- Simple and fast to install with connectors (on average 15 minutes for 50sqm coverage)
- Manufactured in the UK from HDPE, using UV-stabilised material which is less likely to go brittle like cheaper mats
- Suitable for heavy traffic up to 80T

Connectors create a sturdy connection.

Designed to handle rugged site life.

Made in UK

CODE	DESCRIPTION	SIZE (mm)
49-GPM	Ground Protection Mat	2440(L) x 1220(W) x 12(H)
49-GPMC	Ground Protection Mat Connectors*
