

# Temporary Barriers

The anti-trip feet protect pedestrians from trips and falls.

Feet swivel for compact storage and transportation.

## Clearpath Safety Barrier

Our Clearpath Safety Barrier is a smart option for temporary fencing with an innovative anti-trip foot.

- Swivel feet assist in storage and cartage
- Panels link securely together with anti-tamper linking system - no pins required
- Hi-vis, UV-resistant, and anti-fade
- Made in the UK
- Complies to NZ standards
- Weight: 12kg
- Easy to store - 2 panels stacked are only 120mm high

CODE	DESCRIPTION	SIZE (mm)
49-CCB	Clearpath Safety Fence	2000(L) x 1000(H)

The linking system makes setups sturdy even in windy conditions.

## Strongwall Barrier

Strongwall is a user-friendly alternative to traditional water-filled models - no filling required for extra weight, making them easy to set up and instantly effective.

- Very stable, robust and wind resistant
- 18kg recycled plastic base - no water required
- Top section can be filled with water to add up to 15kg in weight
- Modular design allows for various configurations
- Stores compactly - up to 18 per pallet
- Made from high density recycled rubber
- Available in orange or yellow

CODE	DESCRIPTION	SIZE (mm)
49-SW-O	Strongwall Barrier - Orange	1000(L) x 1000(H)
49-SW-Y	Strongwall Barrier - Yellow	1000(L) x 1000(H)

The modular design is fast and easy to deploy, and very compact to store.
