

# 5-Channel Flip-Top Cable Cover.

## Suggested Uses.

- Protecting cables from heavy vehicles in operational zones and construction sites
- Eliminating trip hazards in pedestrian walkways and thoroughfares.
- Temporary cable management during events, exhibitions and concerts.

## Benefits.

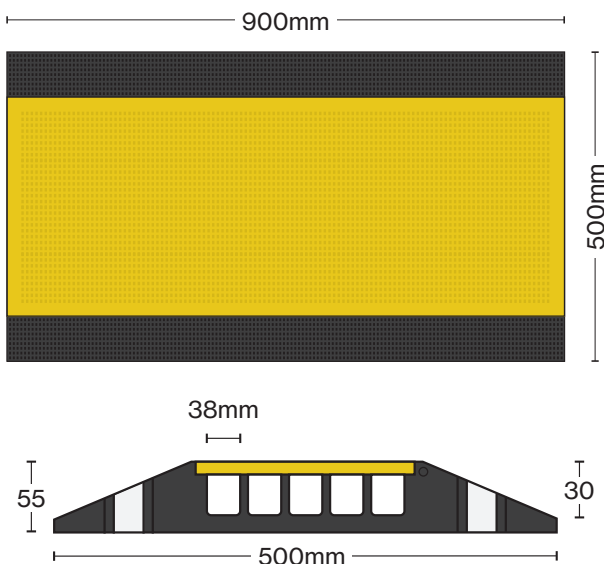

- Suitable for use with heavy trucks and forklifts.
- Unit and lid made from TPU which means the lid will remain closed when driven over with heavy vehicles
- Easily attach multiple cable protectors using the inbuilt connectors to cover long cable runs.
