1m x 2m Extenda-Gate Barrier.
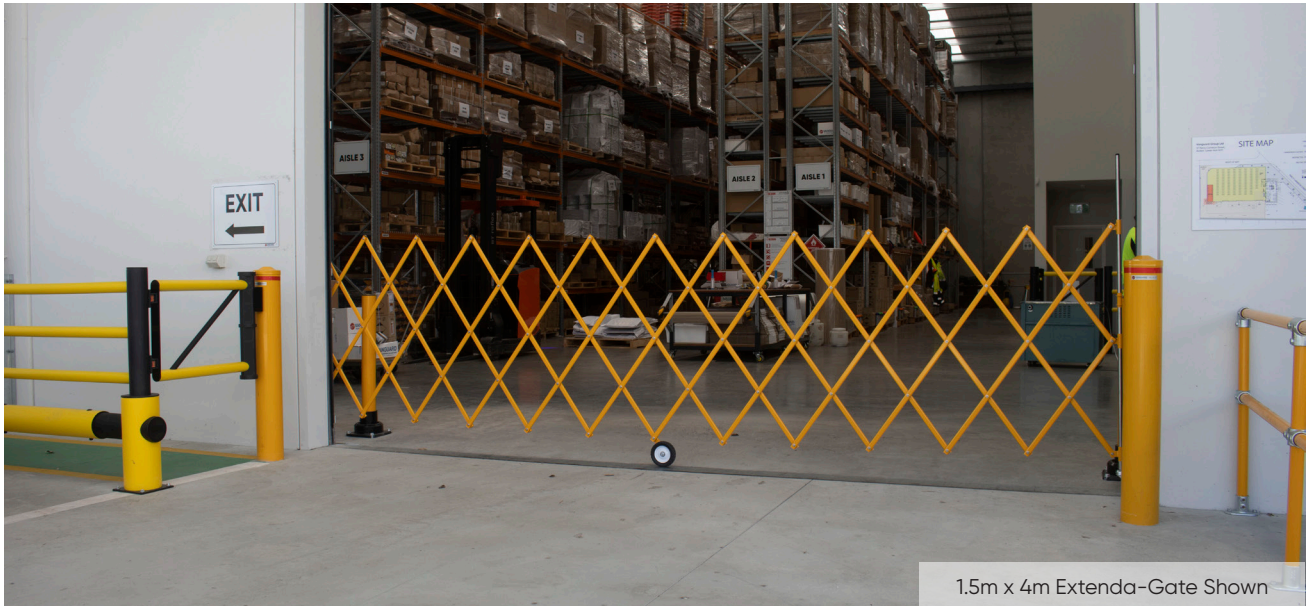

VANGUARD™
Standing between you and harm

1.5m x 4m Extenda-Gate Shown

Suggested Uses.

- Create high visibility temporary exclusion zones
- Quickly close off unauthorised access to areas e.g. aisles, dockways, workshops
- Allow temporary access accross a walkway.

Benefits.

- Rounded aluminium rail design prevent fingers getting hurt if jammed between rails
- Stainless bolt & nylon washer at all pivot points prevent failure due to high wind loads or fatigue.
- Rubber-gripped steel support wheels prevent lateral movement
- Can be supplied with a mobile conversion kit which transforms any fixed Extenda-Gate Barrier into a mobile one that can be wheeled into place when needed.
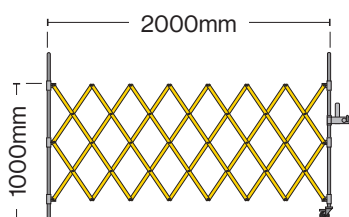

Useful Tip.

Centre joining latch can be used to join two barriers over a longer distance - e.g. using two 10m Extenda-Gate Barriers to span a 20m gap.

Specifications.

Code	49-EXB102
